

PREVI™ PARTNERSHIP RESOURCE CENTER

ONE STOP ACCESS TO COMPREHENSIVE STANDARDS-ALIGNED RESOURCES

Previ™ Partnership Resource Center (PRC) houses a dynamic collection of materials, instructional tools, lesson and unit plans, and ready-made tests aligned to the standards. It's a one-stop, easy-access portal for teachers, curriculum teams, and administrators.

Find What You Need, Right When You Need It

Previ PRC includes curated videos, presentations, articles, and practical, innovative resources to support classroom practice. As teachers progress through the school year and address students' changing needs, they'll find strategies for turning challenges into successes. The easy-to-use search features make it simple to select favorite resources, saving teachers prep time.

Personalized Bookshelf

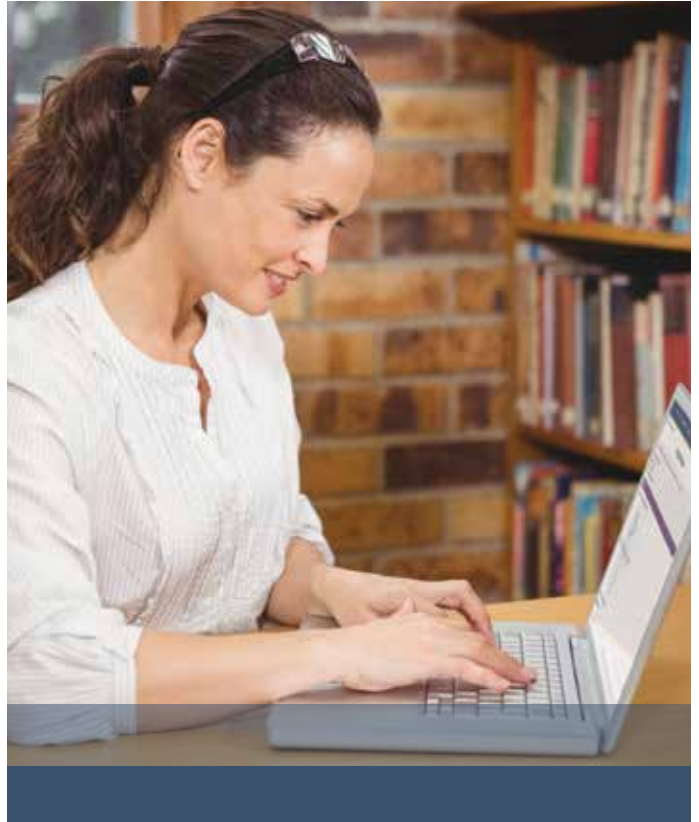

Resources on the PRC can be saved on a personal bookshelf and easily accessed upon login.

A World of Ideas to Improve Instruction

Teaching teams, and their professional learning communities, benefit from the many resources available on the PRC: Previ PRC lessons, units, assessments and videos demonstrating instructional practices.

Previ PRC is also a valuable hub for teachers and other educators to use to strengthen and support their individual professional potential. With Previ PRC, educators can access:

- High-quality resources for grades K–12, with an emphasis on resources that promote excellence in English Language Arts (ELA)/ literacy and mathematics instruction
- Materials developed by trusted and experienced educational experts
- Practical, innovative video and multimedia tools that explain how to use assessment data to inform student learning and classroom practice
- Town hall forum to discuss a variety of topics to support instruction, and the ability to virtually chat in real-time with other PRC users to share information.

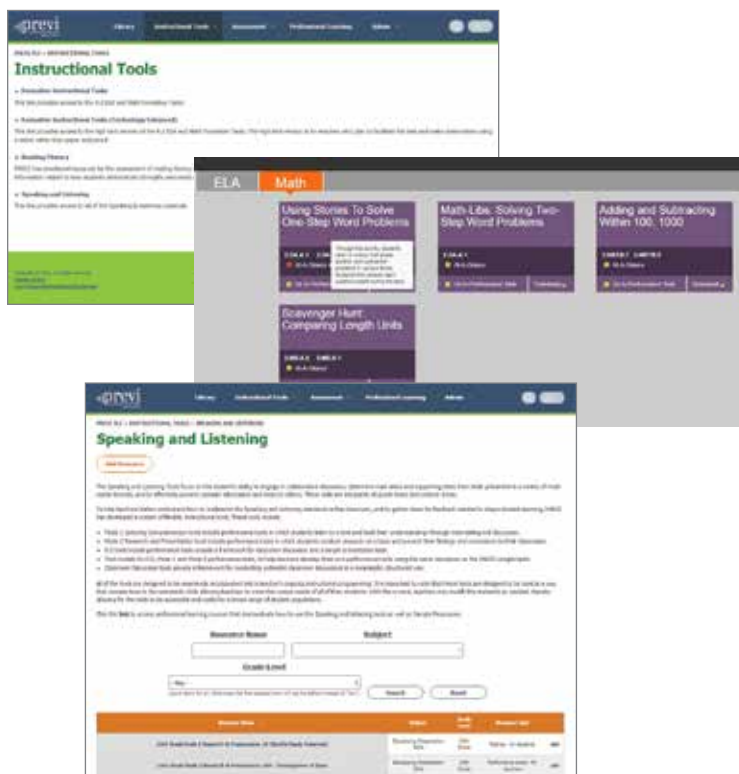

THE ALWAYS-ON, ALWAYS-AVAILABLE PLACE WHERE EDUCATORS FIND VALUABLE, CLASSROOM-TESTED SUPPORT

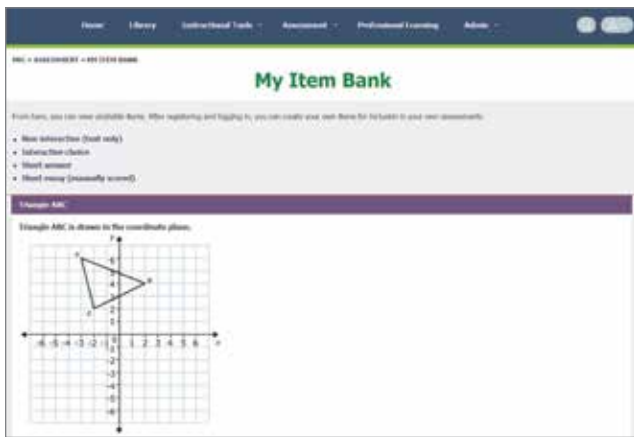

The Previ™ PRC Library

- Instant access to articles, classroom activities, how-to videos, and presentations that focus on instruction, assessment, and classroom practice
- Resources focusing on how standards (including Common Core and other college- and career-ready standards) can influence and improve student achievement and support college- and career-readiness
- Content includes:
 - Model Content Frameworks and Evidence Tables
 - Instruction and assessment best practices
 - Ready-to-use templates, lessons and units

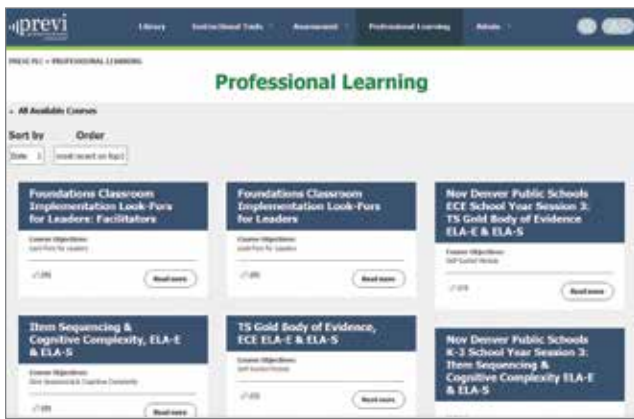

Previ PRC Instructional Tools

- Instructional resources developed by the same educational experts involved in developing college- and career-ready standards and aligned assessments
- Print or tech-enhanced K–2 formative tasks that demonstrate a variety of ways to teach and implement key standards in ELA/literacy and mathematics
- 96 equated literary and informational passages, along with a guide for using these resources to teach and assess fluency
- 1,000+ resources to help educators support students to master the skills detailed in the Speaking and Listening standards

Previ™ Assessment

- Instant access to standards-aligned test questions and, coming soon, a test generation tool for teachers to create their own assessment items
- The mathematics and ELA/literacy test questions are designed to be integrated into classroom practice
- Authentic, standards-aligned content to provide predictive insights into students' college- and career-readiness

Previ Professional Learning

- Teachers can take advantage of on-demand, independent learning opportunities with a growing collection of interactive, self-paced, online courses
- Speaking and Listening courses
- Custom-written courses designed to support specific content areas and learning objectives
- A curated collection of external courses aligned to leading college- and career-ready standards

Community Networking

- Users can connect to share ideas through the online chat feature, and through participation in the hosted online community forums.

Use Previ PRC to Strengthen and Expand Your Professional Learning Programs

Previ PRC supports professional development guidelines in the Every Student Succeed Act (ESSA) and aligns with requirements from several funding streams including Title I and Title II.
