

Assessments

Bring *meaning*
back to your
assessments

CURRICULUM-ALIGNED

CenterPoint creates interim assessments aligned to the scope and sequence of highly rated curricula, including Illustrative Math, EL Education, CoreKnowledge, and soon OpenSciEd.

STANDARDS-ALIGNED

CenterPoint creates interim assessments aligned to college and career readiness standards for ELA and mathematics to help track students' progress and inform instruction.

ASSESSMENTS MATTER.

Our assessments empower educators to:

- Measure student learning
- Track student progress towards grade level expectations
- Adjust instructional strategy based on data

DIAGNOSTICS AND SCREENERS

CenterPoint creates diagnostics and screeners to measure students' learning in K-12 ELA and mathematics to help get students back on track.

CUSTOM ASSESSMENTS

CenterPoint will collaborate with you to build custom assessment solutions across content areas, grade levels, and technology platforms, aligned to state standards as well as your curriculum.

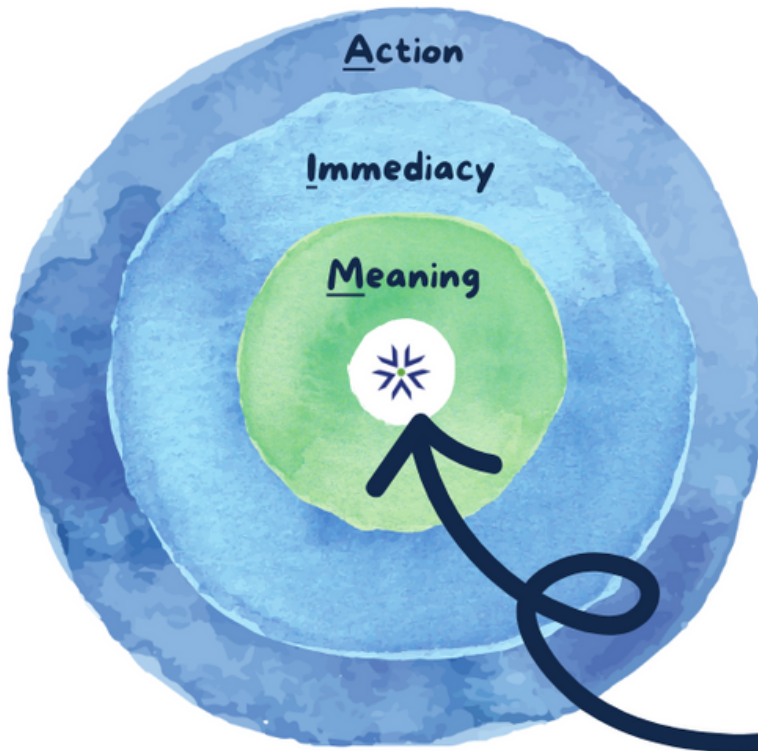

We've developed these assessments in collaboration with these **CURRICULUM PARTNERS**

Our assessments are available on the platforms of these **TECHNOLOGY PARTNERS**

WE BELIEVE IN ASSESSMENT

We believe that the student experience can be transformed with innovative, high-quality assessment practices.

Action for Teachers

We believe providing cohesive, just-in-time insights to teachers about their students can catalyze real changes in learning.

Immediacy for Students

We believe that now is the time to measure learning and skills, and point students to compelling paths and opportunities for growth.

Meaning in the Classroom

We believe that assessments are more meaningful when they are connected with curriculum and professional learning.

Our Center Point

We **AIM** to empower educators to move their students to the **Center Point** by promoting equity and access for all learners and preparing them for college, career, and citizenship.
