

 **Illustrative
Mathematics**
**Aligned Interim
Assessments**

**Developed by Assessment Experts.
Aligned to the Curriculum You Use.**

Our interim assessments certified by Illustrative Mathematics (IM) help teachers understand the breadth of students' skills and understandings in mathematics content and practices. The assessments are aligned to the scope and sequence of the IM curriculum for K-8, Algebra I, Algebra II, and Geometry.

Our IM Aligned Interim Assessments promote equitable measurement of learning and provide educators with the information needed to monitor student learning and adjust instructional practice.

Bring *meaning* back to
your assessments

***Some exciting features of our IM Aligned
Interim Assessments include:***

- Alignment to the Illustrative Math (IM) scope and sequence, with extensive review by IM
- Availability for K-8, Algebra I, Algebra II, and Geometry
- Three assessment forms for Fall, Winter, and Spring assessment windows
- Data to inform instruction, personalize learning, and help close achievement gaps
- Technology enhanced questions
- Modeling and reasoning questions
- Balance of rigor: conceptual understanding, procedural skill and fluency, and application

Aligned Assessments are Meaningful.

Using assessments aligned to high-quality curriculum allows educators to:

Leverage real-time data in the classroom

Make informed instructional decisions

Reinforce curriculum concepts and skills

Increase student interest and engagement
